

CENTRE FOR BRAIN RESEARCH

An Autonomous Centre of the Indian Institute of Science

YOUNG CLINICIAN RESEARCHERS MEETING

The Centre for Brain Research (CBR), supported by the Pratiksha Trust and hosted by the Indian Institute of Science, conducts cutting-edge research on normal and pathological aging of the brain through interdisciplinary approaches spanning clinical and epidemiological studies, cognitive assessments, brain imaging, molecular neuroscience, neurophysiology, omics, and AIML methods.

We are looking for exceptionally bright and motivated clinician researchers for highly competitive faculty and postdoctoral positions. Interested candidates are cordially invited to an **in-person Young Clinician Researchers Meeting** to interact with the CBR leadership and faculty members to know more about the exciting research initiatives and opportunities at CBR.

For whom?

For aspiring/young clinician researchers

- with at least one of the desired qualifications (MD/MS/DNB/MPH/PhD/equivalent) or nearing course completion
- with a keen interest to study aging-related brain disorders from the perspectives of biomarker identification, risk detection and reduction, evidence-based interventions, etc., and
- with expertise in areas of relevance to CBR's mandate (such as epidemiology/public health, clinical neuroscience, neuropsychiatry, neuropsychology, behavioural neurology, neuroimaging, and geriatric medicine).

When?

19 January 2024, Friday

10 am to 3 pm (tentative)

Where?

CBR Auditorium, IISc Campus

CV Raman Avenue, Bengaluru

Lunch and refreshments will be provided; attendees are requested to make their own travel and accommodation arrangements.
